

Haralabia BOLETI	Principal Investigator (Researcher grade B)
-------------------------	--

Scientific Education

- **B.Sc. in Chemistry** National University of Athens, Athens, Greece **1985**
- **M.Sc. in Biochemistry** University of Alberta, Edmonton, Canada **1990**
- **Ph.D. in Molecular Cell Biology** European Molecular Biology Laboratory (EMBL), University of Heidelberg, Heidelberg, Germany **1995**

Languages:

- *Greek (mother tongue)*
- *English (fluent)*
- *French (very good)*
- *German (basic)*

Career Focus

My main interest lies in the research of pathogenesis of infectious diseases and in particular in the study of pathogen-host cell interactions using molecular cellular biology and modern light microscopy imaging techniques. I am keen in exploring the translational aspect of this field of research and aspire to contribute with my work to the improvement of existing limited therapeutic approaches.

Professional Profile

- May 2010-Current** **Researcher B** (tenure)
*Head to the “Intracellular Parasitism Lab, Department of Microbiology
 Scientific co-responsible of the Light Microscopy Facility
 Hellenic Pasteur Institute, Athens, Greece*
- Jan 2002- May 2010** **Researcher C** (tenured track), *Department of Microbiology
 Scientific co-responsible of the Light Microscopy Facility
 Hellenic Pasteur Institute, Athens, Greece*
- Jan 2000 -Dec 2001** **Associate Scientist**, *Hellenic Pasteur Institute, Athens, Greece*
- Oct 1996 - Dec 1999** **EMBO and ARC Post-Doctoral Fellow**, *Pasteur Institute, Paris, France*
- Jun 1996 - Sep 1996** **Visiting Post-Doctoral Fellow**
Dep. of Biochemistry, U. of Alberta, Edmonton, Canada
- Jul 1995 - Feb 1996** **Post-doctoral Fellow**, *EMBL, Heidelberg, Germany*
- Jan 1991 – Jul 1995** **Pre-doctoral Fellow**, *EMBL, Heidelberg, Germany*
- Jan 1987 - Dec 1990** **Graduate Teaching and Research Assistant**
Dep. of Biochemistry, U. of Alberta, Edmonton, Canada.
- Sept 1986 - Dec 1986** **Graduate Teaching Assistant**, *Dep. of Chemistry, U. of Alberta, Edmonton, Canada*

Grants

International

As Scientific responsible

2000-2002: International network of Pasteur Institutes mobility grant

Title: Structural and functional studies of the Hepatitis C non-structural NS4B protein.

Scientific responsible: H. Boleti

Budget (salary and research costs): 73,367€

2003-2005 : ACIP (Actions Concertées des Institus Pasteur)

Title: Etudes des genotypes du virus de l'hepatite C en Asie du Sud-Est et développement de methodes diagnostiques moleculaires spécifiques». Coordinators: Dr **H. Boleti** - Dr P. Mavromara; Member

Instituts: Hellenic Pasteur Institut, Institut Pasteur Paris, IP Vietnam, Cambodge, St. Petersburg

Budget for HPI: 10,000 €

2013 RIIP (Institut Pasteur International Network) Regional course:

Title: “Digital image processing/analysis tools in Light Microscopy: From the basics and beyond”

Coordinator/main organizer: **H. Boleti**

Budget for HPI: 45,000 €

2013-2015: PLATON Greek French R&T transnational cooperation/GSRT

Title: **LeishPhosphoTox:** Molecular and functional characterization of specific phosphatases from the anthrozoonotic intracellular protozoan parasites *Leishmania donovani* and *Toxoplasma gondii* and investigation of their role in the parasite interaction with host cells; Exploration of their potential as drug targets. Head of Greek team: **H. Boleti**; Head of French team: I. Tardieux Budget: 30,000 €

2014-2016: IKYDA (State Scholarship Foundation grant for Greek-German Collaboration)

Title: **LeishPhospho:** Molecular characterization of specific phosphatases from the protozoan parasites *Leishmania donovani* and investigation of their potential as drug targets.

Head of Greek team: **H. Boleti**; Head of German team: M. Kohn;

Budget: 10,000 €

2016 RIIP (Institut Pasteur International Network) International course:

Title: “Cell Biology and infection: Digital Image Processing/Analysis Tools for Quantitative Light Microscopy Imaging” Coordinator/main organizer - **H. Boleti**;

Budget for HPI: 28,000 €

2020-2023 Yersin Calmette Doctoral Fellowship, Institut Pasteur International Network.

Fellowship awarded to Mr Daniel Carrasco Navarro. Start date: 1/10/2020

Supervisor of PhD student: **H. Boleti**; Grant duration: 36 months;

Budget: 60,000€

As collaborator/member of the scientific teams

2003-2005: INSERM-FRANCE

Title: New molecular tools for the purification of human primary hepatocytes infected with HCV: approaches for the study of molecular interactions between HCV and its cellular host in presence or in the absence of an antiviral treatment». Collaboration with the Hepacivirus lab: Institut Pasteur Paris

Budget for H. Boleti: 5,000 €

2003-2006: PTR (Program Transversaux-Institut Pasteur

Title: Implications of HCV diversity in the diagnosis and pathogenesis of virus infection

Coordinator: P. Mavromara-Molecular Virology lab-Hellenic Pasteur Institute Member Instituts: Hellenic Pasteur Institut, Institut Pasteur Paris and Pasteur Institutes of Cambodge, Vietnam, St. Petersburg, Cameroun, Romania

2015-2017 Institut Pasteur International Network Program ACIP:

Title: "Identification of broad-spectrum naturally derived inhibitors against hepatotropic viruses (DENV, YFV, HBV) under culture conditions simulating liver normoxic and metabolic microenvironment. The interplay between virus and hepatic normoxia as a possible disease determinant". Coordinator: Dr Niki Vasilaki. Collaborating Institut Pasteur (IP) partners: C. Neuveut (IP Paris, Unité des Hépacivirus et Immunité Innée), M. Windisch (IP Korea, Applied Molecular Virology), Prof. P. Mavromara (HPI, Molecular Virology), **Dr H. Boleti** (HPI, Intracellular Parasitism and Light Microscopy Unit). Other collaborators: Prof. R. Bartenschlager (Department of Infectious Diseases, Heidelberg, Germany), Prof. A. L. Skaltsounis (Professor and President of Faculty of Pharmacy, Athens, Greece), Prof. Zoidis (Faculty of Pharmacy, Athens, Greece)

Greek government or HPI funded programs

As Scientific responsible/coordinator

2002-2004 Hellenic Pasteur Institute Research grant

Title: Development of molecular and cellular tools for the study of the biochemical properties and the biological function of the NS4B non-structural protein of the Hepatitis C virus

Personal grant for H. Boleti;

Budget: 10,000 €

2004-2006 Competitive grant from the Greek General Secretariat of Research and Technology in the context of the European program "Human Networks for training in Research and Technology" –Establishment of the *Greek Light Microscopy Network*. Title: "Applications of Light Microscopy in Biomedical research and Diagnosis" Collaboration with the U. of Ioannina & the U. of Crete

Coordinator of the project and of the Network: H. Boleti;

Budget: 68,000 €

2008-2010 Hellenic Pasteur Institute Research grant

Title: Phagocytosis of intracellular pathogens by neutrophils and macrophages. The role of apoptotic neutrophils in the establishment of infection.

Scientific Responsible: H. Boleti

Budget: 8,000 €

2019-2021 Ministry of Development and Investment/grant Code EBBM103."Supporting researchers with emphasis on young researchers – B cycle"- "Human Resources Development, Education and Lifelong Learning" on Priority Axis 6, co-funded by the European Social Fund (ESF).

Title: *In vitro* study of the anticancer properties of polyphenols from Greek olive oil.

Coordinator: H. Boleti;

Budget: 45,500 € (Duration 15 months)

2019-2023 H.F.R.I (Hellenic Foundation for Research and Innovation) PhD grant (*Olympia Tziouvara*)

Title: "PI phosphatases and PI binding proteins of the *Leishmania* protozoan parasite: Characterization of two representative molecules and study of their role in the parasite life cycle and in the infection of the mammalian host"

Supervisor of PhD student: **H. Boleti;** Grant duration: 30 months;

Budget: 27,000 €

As collaborator, member of the scientific team

2006-2007 Grant from General Secretariat of Research and Technology in the context of the Program "OPEN DOORS" Member of the scientific team. Organization of courses for Secondary school education teachers.

Budget of this activity of the project: 8,000 €

2012-2015 THALIS grant. Ministry of Education Lifelong Learning and Religion

EVOTRANS, Membrane transport: Structure-function and evolutionary relationships. WP1. Study of the NAT/NCS2 transporters expressed in different organisms to understand how highly homologous transporters assume strikingly different specificities within the same family and how distantly related transporter of different families share common binding-site architectures and motifs. **WP1.2** Expression

of the homologous NAT mammalian transporters in the *Leishmania tarentolae* organism.

Budget for 'Intracellular parasitism team: 40,000 €

2013-2015 Institutional project KRIPIS: Greek GSRT. Project Title: Infectious Diseases and Neurodegenerative in the 21st century. From the study of basic mechanisms in the development of translational research and cutting edge methodologies targeting diagnosis, prevention and treatment. WP **EE2.5:** Mechanisms of *L. donovani* parasite survival in host macrophages and identification of virulence factors. WP **EE 4.5:** Identification, validation characterization of potential molecular targets for anti-leishmanial drug development.

Budget for 'Intracellular parasitism team: 68, 180 €

2017-2019 Institutional project KRIPIS II: General Secretariat for Research and Technology. Project title: "INFECTIOUS, AUTO-IMMUNE AND NEURO-DEGENERATING DISEASES: STUDY OF PATHOGENETIC MECHANISMS AND DEVELOPMENT OF DIAGNOSTIC, THERAPEUTIC AND PREVENTIVE APPROACHES" (MIS 5002486). Implemented under the «Action Strategic Development on the Research and Technological Sector» funded by the Operational Program «Competitiveness, Entrepreneurship and Innovation» (NSFR 2014-2020), and co-financed by the Greek State and the European Regional Development. *Coordinator for HPI: Dr Karagouni E. S.R. for W.P. 3.3 (M4-M24) Dr. H. Boleti. WP 3.3.* "Structural and functional characterization of a phosphoinositide and P-Tyrosine Dual Specificity phosphatase *LdTyrPIP₂* from the protozoan parasite *Leishmania donovani* aiming to highlight chemotherapeutic targets for anti-leishmanial drugs".
Total Funding: 550.000 €. *Budget for Intracellular Parasitism Lab: 22.900 €*

2018-2020 BIOIMAGING GR: "Hellenic Research Infrastructure for the Imaging and Observation of Fundamental Processes in Biology and Medicine" (MIS 5002755) under the Action "Reinforcement of the Research and Innovation Infrastructure", funded by the Operational Program "Competitiveness, Entrepreneurship and Innovation" (NSRF 2014-2020) and co-financed by Greece and the European Union (European Regional Development Fund). *Responsible for WPs 4A-HPI & WP6-HPI of the HPIs participation in the Infrastructure Network.*

2018-2020 «INSPIRED-RIs: National Research Infrastructures on Integrated Structural Biology, Drug Screening Efforts & Drug target functional characterization <https://www.inspired-ris.gr/index.html>. (Code MIS 5002550). *Coordinator at HPI: Dr. A. Mamalaki. Responsible of WP.2.1, WP 2.2, Dr H.Boleti*

Sponsorships and Funding from private institutions

2011 Sponsorship from Genesis Pharma pharmaceutical company to the Intracellular parasitism research group supporting research on the investigation of mechanisms by which the protozoan parasite *Leishmania donovani* infects humans and domestic animals and causes the disease of Kala azar
Scientific responsible: H. Boleti; *Budget for 'Intracellular parasitism team': 15,000 €*

2014 Sponsorship from Abbvie Pharmaceutical Company to the "Intracellular parasitism" group supporting its research projects against Leishmaniasis.
Scientific responsible: H. Boleti; *Budget for 'Intracellular parasitism team': 5,000 €*

2019 Donation from WORLD OLIVE CENTER FOR HEALTH (WOCH) for the study "In vitro study of the anticancer properties of polyphenols from Greek olive oil"
Scientific responsible: H. Boleti; *Budget: 4,500 €*

- 2021** Sponsorship WORLD OLIVE CENTER FOR HEALTH (<https://worldolivecenter.com/>). One Year PhD fellowship to the PhD student Katerina Papakonstantinou for research on the biological activity of olive oil polyphenols. *Scientific responsible*: Dr. H. Boleti & Prof. P. Magiatis (Pharmacy school, National Kapodistrian University of Athens) Budget: 11,040 €

As collaborator, member of the scientific team

2016-2017 Asklepios Gilead Sciences Hellas grant 2016: "Characterization of new synthetic and natural compounds with broad-spectrum anti-viral activity as inhibitors of Hepatitis B virus in a cell culture model simulating the *in vivo* normoxic microenvironment. Importance of liver normoxia for HBV replication and the efficiency of inhibitors" *Scientific responsible*: Dr. Niki Vasilaki; *Collaborators*: C. Neuveut (IP Paris, Unité des Hépacivirus et Immunité Innée), M. Windisch (IP Korea, Applied Molecular Virology), A. L. Skaltsounis, G. Zoidis and V. Myrianthopoulos (Faculty of Pharmacy, University of Athens, Greece), H. Boleti (HPI, Intracellular Parasitism and Light Microscopy Unit)

Teaching Experience

Over the course of my training and work, I have acquired significant teaching experience.

It consists of:

- **Supervision** of **5 PhD** theses [2 defended: Nov 2008 (shared PhD student in collaboration with Dr K. Bourtzis, U. of Ioannina) and April 2015. Two ongoing, started on 1/1/2018 and 1/10/2020, 1 terminated early], **8 MSc** theses; 6 defended (Jan. 2014 (U. of Athens), Jan. 2015 (U. of Athens), June 2015 (U. of Montpellier), March 2017 (U. of Athens), June 2017 (U. of Grenoble) and Dec. 2021 (U. of Athens)] and 2 ongoing (started on Dec. 2021), **2 diploma** theses (2003 (U. of Montpellier), 2009 (U. of Athens), 2020 (U. of Thessaly]) and of the practical training of 14 other post-graduate and undergraduate students (<https://www.pasteur.gr/xaralampia-boleti/> Lab members)
- **Formal lectures** and seminars directed towards postgraduate students pursuing a career in Biochemistry and Medicine and laboratory technicians
- **Practical teaching** in the laboratory to both Biochemistry, Medicine and Dietetics undergraduate students and postgraduate students on subjects related to Biochemistry, Molecular and Cell Biology as well as Light Microscopy techniques
- **Teaching of Secondary Education teachers** on advances in biosciences (<https://www.pasteur.gr/epimorfotika-seminaria-erevnas-ke-technologias/>).
- **Lectures** on "Study of the cellular anatomy with advanced Imaging techniques of Fluorescent microscopy", Chemistry Department, MSc in "Biochemistry", University of Athens
- **Lectures** on the "Biotechnological applications of the system of *Leishmania tarentolae*" (Biology Department, MSc in "Microbial Biotechnology" University of Athens and Medical School, University of Ioannina, MSc in Molecular-Cellular Biology and Biotechnology)
- **Lectures** "Molecular Mechanisms of the host cells targeted by intracellular pathogens" Biology Department, MSc in "Applications of Biology in Biomedical research", University of Athens)
- **Lectures** "The technology of Fluorescent proteins. From the jellyfish and corals to the laboratories of Biology and Medicine", Medical School, MSc in "Biotechnology", University of Ioannina) and in Bioimaging symposia (<http://mgn.upatras.gr/bioimaging2010/>).
- **Member** of four 3-member PhD committees and of one 7-member PhD committee

Management/Organization Experience

Organization of Conferences/Courses/Workshops

- **Organizer** of a Practical Workshop on Light Microscopy. A workshop addressed to scientists working at the Pasteur Institute in Paris. With the collaboration of ZEISS, Leica and Photonic Science (Paris, April 1998).

- **Organizer** of Practical Workshops on "Applications of Light Microscopy on Biomedical Research and Diagnosis" addressed to Biologists and Medical Doctors in Greece. Hellenic Pasteur Institute (Athens, May 2004 and April 2005)
- **Coordinator** of a series of workshops on Light Microscopy in the context of a program financed by the Greek General Secretariat of Research and Technology in the context of the European program "Human Networks for training in Research and Technology". As a result, The Greek Light Microscopy Network was established having as members the universities of Ioannina, Crete and Athens, the Hellenic Pasteur Institute, the Institute for Biomedical Research in Ioannina and three private companies (**2004-2006**) (<https://www.pasteur.gr/epimorfotika-seminaria-erevnas-ke-technologias/>)
- **Organizer** of 3-day workshops for secondary education teachers with the aim of offering training and information about the recent advances in the biomedical sciences in the context of the program "Open Doors" financed by the Greek Ministry of Development, Division for Research and Technology. The project was developed in collaboration with EMBL (**2005-2007**) (<https://www.pasteur.gr/epimorfotika-seminaria-erevnas-ke-technologias/>)
- **Co-organizer** of the **SET ROUTES** event "Opening Gateways to Science" (11/11/2008) with Invited international speakers from research and science politics who talked about their career paths and their experiences on working in different scientific areas. The event was aimed at university undergraduate and post-graduate students and scientists from all levels (http://www.set-routes.org/university/calendar/athens_nov08/index.html)
- **Coordinator** and scientific responsible of 3 different projects for the construction of the Hellenic Pasteur Institute website. www.pasteur.gr (**2003, 2009, 2012, 2020**)
- **Organizer** of two Institut Pasteur International Network regional and international courses on Digital Image Processing/Analysis Tools for Quantitative Light Microscopy Imaging (10-17 June 2013; <https://www.pasteur.gr/monada-fotomikroskopias/>) and (July 4-8, **2016**; <https://www.pasteur.gr/monada-fotomikroskopias/>)

Awards/Honors

- Excellence Award from the Greek Ministry for Education for the academic year **1982-1983**
- The Greek Canadian Association Scholarship **1988**
- Graduate Teaching Assistantship and Research Assistantship, Dep. of Biochemistry, U. of Alberta. **1987-1991**
- EMBL pre-doctoral Fellowship **1991-1995**
- EMBL post-doctoral Fellowship **1995-1996**
- EMBO post-doctoral Fellowship **1996-1998**
- TMR post-doctoral Fellowship **1997-1999**
- Post-doctoral Fellowship Fondation pour la Recherche Médicale (FRM) **1998-1999**
- Post-doctoral Fellowship Association pour la Recherche contre le Cancer (ARC) **1998-1999**
- Mobility Research grant, The Pasteur Institute, Paris, France **2000-2002**
- EMBO short-term Fellowship **2000**
- Fellowship from the French Embassy in Greece (EGIDE) **2005**
- Poster award **2016**
at the 67^o Panhellenic conference of the Hellenic Society of Biochemistry and Molecular Biology, Ioannina, (25-27 Nov. 2017). **Title:** *LdPIBPnex*, a secreted nexin-like protein from the protozoan parasite *Leishmania donovani*. **Authors:** Drosos Kourounis, Amalia Papadaki, Olympia Tziouvara, Haralabia Boleti, Intracellular parasitism group, Hellenic Pasteur Institute

Memberships

- Founding member of the Greek Bioimaging Society (recognized legally in spring **2016**)
- Member of the Hellenic Society of Biochemistry and Molecular Biology.
- Member of the Comité d'Animation Scientifique Internationale-Advisory Scientific committee-(COMASI) of the International Network of the Pasteur Institutes and Associated Institutes (**2002-2005**). The committee

evaluated applications for the organization of international courses within the Pasteur Institute network as well as research proposals submitted for funding at the Direction des Affaires Internationales of the Institut Pasteur, Paris.

- SET-ROUTES School & University ambassador <http://www.set-routes.org/>
- Member of scientific committees for the organization of Microscopy meetings (ELMI meeting 2011)
- Member of the Jury for the 6th international scientific film festival. November 2011, Athens (<http://www.caid.gr/isffa/about.html>)

Conference participation

Results from original research work have been presented in 22 International & 18 National conferences (Total 40) as 18 oral and 27 poster presentations (total number 46).

International

1. **HSCBB21 (15th Conference of the Hellenic Society for Computational Biology and Bioinformatics)** (*Hybrid conference*). Dec. 10-11, 2021, Athens. Title: Sequence Conservation Analysis and Domain Architecture Classification of the Kinetoplastida PX domain-containing proteins. Authors: M. V. Petsana, A. F. Roumia, P. G. Bagos, **H. Boleti** and G. G. Braliou
2. **ISCB-Africa ASBCB Conference on Bioinformatics 2021** (*Virtual event*), June 7-10, Home Africa Title: Phylogenetic and structural analysis of the PX domain containing PhosphoInositide (PI) binding proteins in *Kinetoplastida*. Authors: Marina V. Petsana, Ahmed F. Roumia, Pantelis G. Bagos, **Haralabia Boleti** and Georgia G. Braliou
3. **31st Annual ICRS Symposium on the Cannabinoids** (*Virtual event*), June 21 - 24, 2021. **5 min video poster**: “Simultaneous extraction and synthesis of new cannabinoids acid esters and their in vitro cytotoxicity assessment in breast cancer cell lines”. Authors: E. Dadiotis, A. Papakonstantinou, V. Mitsis, E. Melliou, **H. Boleti** & P. Magiatis
4. **20th International congress of the International Society of Ethnopharmacology** (Virtual event), 18-20 April 2021
 - i. Poster: **Evaluation of the anti-proliferative/cytotoxic action of olive oil polyphenols on human breast cancer**. Authors: A. Papakonstantinou, P. Koumariou, E. Melliou, P. Magiatis, **H. Boleti**
 - ii. Poster: **Evaluation of anti-proliferative/cytotoxic action of olive oil polyphenols on human melanoma cancer**. Authors: P. Koumariou, A. Papakonstantinou, E. Melliou, P. Magiatis, **H. Boleti**
5. **2nd International Caparica Conference on Leishmania 2020**, Caparica, Portugal (26th- 28th Oct. 2020) Invited oral presentation: *Leishmania tarentolae* as a model organism for heterologous expression of mammalian multi spanning membrane transporters. Pros and cons. Authors: H. Boleti, A. Doukas, S. Friligos
6. **26th International Symposium on Hepatitis C Virus and Related Viruses**. Seoul, South Korea, 5-8 Oct. 2019. Poster: Emerging role of L-dopa decarboxylase in DENV and HCV infection. Authors: Frakolaki E, Kalliampakou K, Chalari A, Siozos V, **Boleti H**, Koskinas J, Vassilacopoulou D & Vassilaki N.
7. **3rd International Scientific retreat organized by Institut Paris (StaPa) and the Instituto Pasteur Italia**. Rome, Italy. 12-15 June, 2019. Poster: Expression of recombinant Phospho-tyrosine and PI Phosphatase *LdTyrPIP_22-His* in the *Leishmania tarentolae* expression system. Authors: Tziouvara O., Dimotsantos G, **Boleti H**.
8. **Scientific Symposium of the Institut Pasteur International Network**. Paris, France (10-13 Sept. 2014).

Poster title: The *Leishmania* membrane bound Histidine Acid Phosphatases (HACPs) as putative virulence factors; Characterization of the *LdMACP*, a Histidine Acid ecto-phosphatase from *L. donovani*. Authors: Papadaki A., Boleti H.

9. **Cost Action CM0801, 4th Annual Meeting.** Crete (Sept. 19-21 **2012**). Poster title: Study of specific *Leishmania* Atypical Lipid Phosphatases (ALPs) as putative virulence factors for parasite survival in host phagocytes and as potential drug targets. Authors: Kotopouli A, Papadaki A, Doukas A, Papadacos K, Sgouras D, Galanopoulou N., **Boleti H.**
10. **Scientific International Meeting of Young Researchers from RIIP**, Institut Pasteur, Paris, France (10 Nov. **2011**). Commented Poster (oral presentation): Phosphoinositide involvement in *Leishmania donovani* phagocytosis by Raw 264,7 macrophages. Authors: Amalia Papadaki, Haralabia Boleti
11. **23rd International conference of Entomology (ICE)** Durban, S. Africa, 6-12 Jul. **2008**.
 - 1) Oral presentation: Insect-Wolbachia-WO phage tripartite symbiotic interaction: exploring the role of phage. Authors: P. Sapountzis, H. Boleti, S. R. Bordenstein, K. Bourtzis
 - 2) Oral presentation: *Drosophila-Wolbachia* symbiotic interactions: exploring the role of ankyrins. Authors: P. Sapountzis, S. Siozios, P. Ioannidis, A. Saridaki, H. Boleti, K. Bourtzis
12. **4th World congress in Leishmaniasis**, Lucknow, India, 3-7 Feb. **2009**.

Oral presentation: The leishmanial Ran-GTPase system reveals an atypical Ran network
Authors: Despina Smirlis, Haralabia Boleti, Maria Gaitanou, Ketty Soteriadou Laboratory of Molecular Parasitology, Department of Microbiology, Laboratory of Cellular and Molecular Neurobiology, Department of Biochemistry, Hellenic Pasteur Institute
13. **33rd FEBS conference**, Athens, Jun 28- Jul. 3, **2008**

Poster: *Wolbachia* ankyrins and their potential role on *Drosophila-Wolbachia* symbiosis. *FEBS Journal* 275:266.
Authors: Saridaki¹, P. Sapountzis^{1,2}, S. Siozios¹, P. Ioannidis¹, H. Boleti², and K. Bourtzis¹-
Biochemistry and Molecular Biology Laboratory, Department of Environmental and Natural Resources Management, University of Ioannina, Agrinio; Molecular Parasitology Unit & Light Microscopy Unit, Hellenic Pasteur Institute, Athens, Greece.
14. **Congress of the International Network of Pasteur Institutes.** Ho-Chi-Minh-Ville, Viet-Nam, **22-24 Oct 2001**

Invited speaker: Interaction of the Hepatitis C virus with its host cells: Study of the non-structural NS4B protein.
Authors: H.Boleti, P. Mavromara- *Molecular Virology laboratory,-Hellenic pasteur Institute*
15. **1st Conference of ELSO (European life sciences Organization).** Geneva, Switzerland, **2-6 Sep.2000**

Poster: Vesicular traffic between the *C. psittaci* inclusion and Golgi intersects a retrograde traffic pathway between Golgi and ER.
Authors: H. Boleti, D. Ojcius, A. Dautry Varsat- *Unité de Biologie des Interactions Cellulaires, Institut Pasteur, Paris.*
16. **3rd Conference of EMBO fellows.** Heidelberg, Germany, **11-13 Jul 1999**

Oral presentation: Expression of dynamin and Eps15 mutants had no effect on the entry of *Chlamydia* into epithelial cells but the dynamin mutant inhibited the *Chlamydia* productive growth.
Authors: H.Boleti, D. Ojcius, A. Dautry-Varsat - *Unité de Biologie des Interactions Cellulaires, Institut Pasteur, Paris.*
17. **2nd Conference of ECBO (European Cell Biology Organization).** Bologna, Italy **8-11 May, 1999**

Poster: *Chlamydia* entry into epithelial cells is independent of dynamin or Eps15 function but the productive growth of *Chlamydia* is inhibited by a dynamin I mutant.
Authors: H.Boleti, D. Ojcius, A. Dautry Varsat - *Unité de Biologie des Interactions Cellulaires, Institut Pasteur, Paris*
18. **2nd Conference Louis Pasteur in Infectious diseases.** Paris, France, **8-10 Oct 1998**.

Poster: Characterization of *Chlamydia* entry into epithelial cells.

Authors: H. Boleti D. Ojcius, A. Dautry Varsat- *Unité de Biologie des Interactions Cellulaires, Institut Pasteur, Paris*

19. Congress of the American Society of Cell Biology, Washington D.C. H.Π.A. **11-14, Dec 1995**

Poster: Xklp2, a *Xenopus* Kinesin-Like Protein localised on centrosomes and the mitotic spindle, is essential for bipolar spindle assembly. Authors: H.Boleti, I. Vernos, E. Karsenti - *Dep. Of Cell Biology, EMBL, Heidelberg, Germany*

20. 4th European conference of Cell Biology. Prague, Czech Republic, **26 Jun-1 Jul 1994**

Poster: Xklp2, a *Xenopus* “KLP” localized on the centrosome and mitotic spindle.

Authors: H.Boleti, I. Vernos, E. Karsenti - *Dep. Of Cell Biology, EMBL, Heidelberg, Germany*

21. ENII (European Network of Immunology Institutes) Congress. Les Embiez, France, 20-24 May **1992**

Poster: Intracellular transport and processing of the MHC class II glycoproteins and the associated invariant chain. Authors: H. Boleti, B. Dobberstein - *Dep. Of Cell Biology, EMBL, Heidelberg, Germany*

22. 6th International Congress on «Differentiation of Normal and Neoplastic cells» Vancouver, Canada, 29 July- 2 Aug. **1990**. Poster: Nucleoside transport in K562 human leukemia cells.

Authors: H. Boleti, C.E. Cass - *Dep. of Biochemistry, U. of Alberta, Canada*

National conferences

23. 71st Congress of the Hellenic Society of Biochemistry and Molecular Biology (EEBMB). 26-28 Nov. **2021**, Athens, Greece. Short talk title «*LdPIBPsnx*: The First Sorting Nexin in *Leishmania*. Authors: O. Tziouvara, M. V. Petsana, D. Kourounis, A. Papadaki, E. Basdra, G. G. Braliou, **H. Boleti**

24. EEBMB 2021, «Molecular basis of infections» (Virtual congress), 21-26 May 2021. 5 min video poster: The *Leishmania donovani* Tyrosine and PI Phosphatase *LdTyrPIP₂₂*. Authors: O. Tziouvara, P. Koumariou, **H. Boleti**

25. 11th Hellenic Congress of Immunology , Athens 5-7 Dec. 2019

Oral presentation title: Confocal Microscopy; Invited speaker: Boleti H.

26. 67th Conference of the Hellenic Society of Biochemistry and Molecular Biology, Ioannina, (25-27 Nov. **2016**) Poster (prize): *LdPIBPnex*, a secreted nexin-like protein from the protozoan parasite *Leishmania donovani*. Authors: Kourounis D, Papadaki A, Tziouvara O, **Boleti H.**

27. 67th Conference of the Hellenic Society of Biochemistry and Molecular Biology, Ioannina (25-27 Nov. **2016**) Poster: *Study of LdTyrPIP₂₂, a Tyrosine and Phosphoinositide Phosphatase from Leishmania donovani*. Authors: Tziouvara O, Kotopouli A., Papadaki A, **Boleti H.**

28. 66th Conference of Hellenic Society for Biochemistry & Molecular Biology. Athens, Greece (11-13 Dec. **2015**)

Oral presentation title: Biochemical characterization and subcellular localization of the tyrosine and phosphoinositide dual specificity phosphatase *LdPIP22*, a potential drug target from *Leishmania donovani*. Authors: Papadaki A, Kotopouli A, Doukas A, Rios P, Tziouvara O, Koehn M, **Boleti H**

29. 64th Conference of Hellenic Society for Biochemistry and Molecular Biology. Athens, Greece (6-9 Dec. **2013**). Poster title: Heterologous expression of the mammalian nucleobase transporter rSNBT1 in the LEXSY *Leishmania tarentolae* protein expression system. Authors: Doukas A, Papakostas K, Papadaki A, Frillingos S, **Boleti H.**

30. 62nd Conference of Hellenic Society for Biochemistry and Molecular Biology. Athens, Greece (9-11 Dec.

2011). Poster title: Study of specific *Leishmania* histidine acid phosphatases as putative virulence factors for parasite survival in host phagocytes and as potential drug targets. Authors: Papadaki A., Smirlis D., Kourou, K., Politou A.S., Boleti H.

- 31. 60th Conference of the Hellenic Society of Biochemistry and Molecular Biology.** Athens, 20-22 Nov. **2009**
Poster: Generation of transgenic *Leishmania donovani* expressing the Red Fluorescent protein mRFP1: a tool for in vivo imaging of the parasite host cell interaction
Authors: *Kotini M., Papadaki A., Smirlis D., Soteriadou K. Diallinas,G. & Boleti H. Molecular Parasitology Laboratory & Light microscopy Unit Hellenic Pasteur Institute & Biology Dep. of Kapodistrian University of Athens, Botany Department*
- 32. 60th Conference of the Hellenic Society of Biochemistry and Molecular Biology,** Athens, 20-22 Nov. **2009**
Poster title: Phosphoinositide involvement in *Leishmania donovani* phagocytosis by Raw 264,7 macrophages
Authors: *A. Papadaki, M. Kotini, D.Smirlis, J. Pizarro-Cerda, K. Soteriadou & H. Boleti, Molecular Parasitology Laboratory and Light Microscopy Unit, Hellenic Pasteur Institute, Unité des Interactions Bactéries-Cellules, Institut Pasteur Paris*
- 33.1st Conference «MIKROVIOKOSMOS»,** Athens, 12-14 Dec. **2008**
Poster: *Wolbachia* safe sex: The triggering factor for speciation, ecological diversity and applications.
Authors: *Saridaki, P¹. Sapountzis, S^{1,2}. Siozios, P. Ioannidis¹, **H. Boleti**², S. Zabalou³, C.Savakis⁴ and K.Bourtzis¹ Biochemistry and Molecular Biology Laboratory, Department of Environmental and Natural Resources Management, University of Ioannina, Agrinio; Molecular Parasitology Unit & Light Microscopy Unit, Hellenic Pasteur Institute, Athens, Greece.*
- 34. 5th International conference of Wolbachia.** Kolympari, Crete, Greece, Jun. 9-14, **2008**
1) Poster title: A novel tool to study insect-*Wolbachia*-phage interactions.
Authors: *P. Sapountzis, H. Boleti, SR. Bordenstein and K. Bourtzis*
2) Poster title: *Drosophila-Wolbachia* symbiotic associations: exploring the role of wRi ankyrins.
Authors: *P. Sapountzis, S. Siozios, P. Ioannidis, A. Saridaki, **H. Boleti**, S. Andersson & K. Bourtzis*
- 35. 30th Annual Scientific conference of Greek Society of Biological Sciences.** Thessaloniki, May **22-24, 2008**
Oral Presentation: Study of ER Anchoring and Retention sequences of the HCV virus NS4B protein:Fusion of NS4B with the plasma membrane enzyme CD39 reveals an experimental system for the recognition of ER retention signals. Authors: **Boleti H**^{1,2}, Smyrlis D², Christophoridis S³, Mavromara P⁴
¹*Light Microscopy Unit,*²*Molecular Parasitology Lab.,* ⁴ *Molecular Virology Lab., Hellenic Pasteur Institute.,*
³*Biological Chemistry La. Medical School Ioannina & Biomedical Research Institute, FoRTH, Ioannina*
- 36. 59th Congress of Greek Biochemical Society,** Athens, **7-9 Dec. 2007**
Oral Presentation: The leishmanial Ran-GTPase system reveals an atypical Ran network
Authors: *Smirlis D^a, **Boleti H**^a, Gaitanou M^b, Soteriadou K^a*
^a*Laboratory of Molecular Parasitology, Department of Microbiology,* ^b*Laboratory of Cellular & Molecular Neurobiology, Department of Biochemistry, Hellenic Pasteur Institut*
- 37. Light Microscopy Day.** Greek Network of Light Microscopy) & Hellenic Pasteur Institute. Athens, 21 Jan. **2006**
Oral presentation: When the microbes conquer the host cells. Authors: **Boleti H.**
- 38. 57th Congress of Greek Biochemical Society.** Athens,9-11 Dec. **2005**

Oral Presentation: Signals for insertion and retention of the NS4B Hepatitis C virus protein to the endoplasmic reticulum. Authors: **Boleti H**, Ntalagiorgou G., Mavromara P.-*Molecular Virology Laboratory-Hellenic Pasteur Institute*

39. 57th Congress of Greek Biochemical Society. Athens, **9-11 Dec. 2005**

Poster: Lotus japonicus: Nodule expressed putative polyol transporters

Authors Kaliampakou K. I. ¹, Efrose R. C. ², Demou M., Stedel C.¹, **Boleti H**³, Flemetakis E.¹ & Katinakis P. ¹
¹Agricultural U. of Athens, *Dep of Agriculture Biotechnology*, ²National Research Centre Democritus, ³Hellenic Pasteur Institute, *Microbiology Department*

40. 25th Annual conference of the Greek Biochemical Society, Athens, **10-11 Jan 1997**

Oral presentation: Biochemical characterization of a new Microtubule motor protein from the kinesin family.

Authors: *H.Boleti, I. Vernos, E. Karsenti - Dep. of Cell Biology, EMBL, Heidelberg, Germany*

41. 18th Annual conference of the Greek Society of Biology, Kalamata, Greece, **17-19 Apr. 1996**

Oral presentation: Η Xklp2, μία πρωτεΐνη κινητήρας των μικροσωληνίσκων του *Xenopus laevis* είναι απαραίτητη για την συγκρότηση της μιτωτικής ατράκτου (Xklp2, a microtubule motor protein from *Xenopus laevis* is essential for mitotic spindle assembly). Authors: *H.Boleti, I. Vernos, E. Karsenti - Dep. Of Cell Biology, EMBL, Heidelberg, Germany*
